RUG REPAIRS AT THE ULTIMATE RUG SPA

At Kelly Cleaning, we understand that rugs are more than just decor; they often hold sentimental value and are treasured family heirlooms. Recently, our Ultimate Rug Spa had the pleasure of working on a very special project: repairing a beloved rug that had been passed down from a client's parents.

This particular rug, rich with memories and history, needed more than just a thorough cleaning. The client entrusted us not only to clean but also to repair the rug, ensuring it could be enjoyed for many more years to come. Our experienced technicians at the Ultimate Rug Spa took on the task with the utmost care and attention to detail.

Continued from page one:

First, we meticulously cleaned the rug, restoring its original colors and patterns, making it look as good as new. But the magic didn't stop there. We also repaired the torn edges, which had suffered wear and tear over the years. Our skilled team carefully attached a beautiful fringe to both ends of the rug, a touch that not only strengthened the edges but also revived the rug's vibrancy and charm.

The client was overjoyed with the results, and seeing their reaction reaffirmed why we do what we do. At the Ultimate Rug Spa, we take pride in our ability to breathe new life into cherished items. Whether it's repairing minor damages or enhancing the rug's beauty with thoughtful details, we are dedicated to providing top-notch service.

Trust us to handle your treasured pieces with the care and expertise they deserve.

SIERGE'S SOLUTION

Top o' the mornin' to ya! It's Sierge here, Kelly Cleaning's very own Concierge, ready to help you tackle a bit o' spring cleaning. Now, if you've noticed a peculiar smell comin' from your AC vents after a long winter and fall slumber, it's high time to give those vents a good cleanin'!

First off, make sure you turn off your AC system. Safety first, aye? Next, you'll want to remove the vent covers. Give them a good wash in warm, soapy water, and let 'em dry thoroughly.

Now, grab your vacuum with a hose attachment and give the ducts a gentle but thorough vacuuming. This should remove a good bit of dust and debris. For those hard-to-reach spots, a microfiber cloth attached to a flexible, extendable duster should do the trick. If the smell persists, mix a bit o' baking soda and water to make a mild paste, and gently scrub the inside of the vents. This helps neutralize any lingering odors.

But listen here, for the best results and a thorough job, it's always best to call in the professionals. Kelly Cleaning offers top-notch vent cleaning services that'll leave your home smelling fresh as a daisy. Our team has the right tools and expertise to ensure your vents are spotless and your air is clean.

Give us a call, and we'll make sure your AC is ready for the warm weather ahead. Sláinte!
