## REVITALIZING COMMERCIAL SPACES WITH FLOOR REFINISHING

Spring has sprung, and with it comes a sense of renewal and a perfect opportunity to freshen up your business space. At Kelly Cleaning, we recently helped one of our janitorial clients breathe new life into their commercial vinyl wood flooring. The floors had seen better days, but our technicians were ready for the challenge.

We performed a machine scrub and seal to thoroughly remove stubborn residue and restore the floor's original luster. This process doesn't just...

...enhance appearance—it also protects the flooring from further wear and tear. A clean, polished floor makes a lasting impression, supports hygiene, and makes routine cleaning much easier.

Our floor maintenance service doesn't just cover LVT, we do all kinds of flooring! Remember: if your floors are due for some TLC, don't let them become an eyesore. Call Kelly Cleaning to schedule a deep clean and seal today.

Ah, spring! A grand time to fire up the ol' grill or griddle for some backyard cookin'. But before ye slap those steaks down, let's make sure the surface is clean as a whistle! Here's a DIY method using common household supplies:

- Step 1: Heat the grill or griddle slightly—just enough to loosen stuck-on grease.
- Step 2: Sprinkle baking soda or pour on white vinegar (but not both together!) and let it sit for a few minutes.
- Step 3: Scrub with a grill brush, sponge, or balled-up foil.
- Step 4: Wipe down with a damp cloth, then dry with a clean towel.

Still got stubborn grime? Head over to the Kelly Tech Janitorial Supply Store at 2300 Knoll Dr. Suite B in Ventura, where we stock non-toxic grill and griddle cleaners and all the heavy-duty tools you might need. For medium-level jobs, we recommend Bar Keepers Friend, a real miracle in a can! And of course, if you'd rather leave the scrubbing to the pros—give us a ring. Sláinte!

Sláinte (Slon-che) = Cheers!
